You just draw money from an ATM and will get paid $\bigcirc\bigcirc$ yen! It's as simple as that!

If you are leaving Japan soon, we'll buy your mobile phones and bank accounts that you no longer need at high prices!

Alert! The following acts are crimes!

Giving away mobile phones to others (Mobile Phone Improper Use Prevention Act violation)

Selling or giving away bank accounts or bank cards to others (Act on Prevention of Transfer of Criminal Proceeds violation) *Receiving bank cards of others in an attempt to draw money by impersonating the rightful holder is also the same offence.

Signing delivery receipts by impersonating others (Counterfeiting of private seals)

Defrauding others of delivered parcels (or goods)

(Complicity in fraud)

Drawing money from bank accounts of others through ATMs (Theft)

Your goal is to learn the skills and techniques and return home to your family safe and sound, but if you take part in criminal activities, you will be subject to disadvantageous disposition, such as <u>arrests for criminal charges and deportation</u>. You must be careful never to be involved in any crime, and if you see or hear any criminal activities, notify the local police.
